Renewable Energy Writing Assignment

In this assignment you are going to research and write about **ONE** of the renewable energy sources. You will research information concerning this issue.

Renewable Energy Sources

1. Hydroelectric Power
2. Geothermal Energy
3. Wind Energy
4. Solar Energy
5. Nuclear Energy

Use the following guide in order to guarantee that you gather all the information needed in your paper.

- Title your paper – be original not ordinary.
- Provide an introduction paragraph.
- Provide the following information:
 - Why did you choose this type of renewable energy?
 - How does this renewable source gather energy and convert it to usable energy?
 - What are the pros of this energy source?
 - What are the cons of this energy source?
- Provide a conclusion. What have you learned about this renewable source of energy? Do you agree or disagree that this source of energy will help with the planets greenhouse effect? Why?
- Paper must be typed and at least 4 paragraphs.
- Do not plagiarize.
- Watch your spelling, grammar, and use complete sentences.
- Remember that when you research you must cite at least two sources of your information.
